

UConn Extension is offering **Middlesex County** residents a well water test, normally valued at \$350, for **the reduced cost of \$200 (cash or check)**. Participants can sign up online at <https://s.uconn.edu/haddam-well-testing>.

Or scan here

The collection event will be held at the **UConn Extension - Middlesex County Extension Center (1066 Saybrook Rd, Haddam, CT 06438)** on **May 3rd** from **10:00am – 1:00pm**.

These tests cover coliform bacteria, lead, arsenic, uranium, nitrates, sodium, chloride, fluoride, pH, hardness, sulfate, turbidity, iron, and manganese. They **will mail a sample kit to participants in advance of the collection event**. Sample kits will also be available at the collection event on May 3rd.

The **deadline to be mailed a sample kit is April 25th**. Sample kits will also be available at the collection event.

This a terrific opportunity to have your well water sampled at a reduced price.

Thank You
Scott Martinson, MPH MS RS
Director of Health, CT River Area Health District
